

HST-FCD20 Plastic Film Strip Sample Cutter

Picture just for reference

Application:

Plastic Film Strip Cutter is used to make sample strips for tensile test of BOPP, BOPC, BOPET, BOPA and other films.

Features:

1. Rigid structure, sharp blade, easy to exchange
2. Easy to operate, safe and reliable
3. Can cut several layers, several kinds of strips at the same time
4. Can cut 12pcs of strips at the same time: 5pcs of 15mm wide and 7pcs of 10mm wide
5. Other type of cutter can be customized to cut 10mm, 15mm, 20mm, 25mm wide strips at the same time
6. The edge of sample strip prepared will be smooth, no defect, without affecting the mechanical property of film

Specification

Model	HST-FCD20
Cutting width	10±0.1mm 7 pieces
	15±0.1mm 5 pieces
	20±0.1mm 3 pieces
	25±0.1mm 3 pieces

Cutting thickness	$\leq 0.25\text{mm}$
Specimen error	$\leq \pm 0.1\text{mm}$
Specimen length	160mm
Dimensions	290×230×150mm (L×W×H)
Weight	15kg
